TROOPER

LOTUS CARAVANS HAVE PUT THE NEW-LOOK TROOPER YEARS AHEAD OF THE PACK WITH THEIR ELECTRONIC SOLUTION POWERED BY 200 AMPS OF LITHIUM POWER, DRIVEN BY A REDARC MANAGEMENT SYSTEM AND 600 WATTS OF SOLAR PANELS.

HIGH PERFORMANCE ON ANY TERRAIN.

Lotus Caravans builds the best premium off-road caravan available on the Australian market today. Sleek, modern style, featuring top-of-the-range finishings and exceptional off-road performance, the Trooper is a must-have for anyone wanting the best. This is the new standard in off-road caravanning.

TAILORED AS STANDARD.

Free camping has never been so easy with a 110 litre grey water tank, 62 litres of filtered drinking water and an amazing 157 litres of additional water for general use. The large generator slide toolbox comes with the option of a bike rack or a heavy-duty fridge slide. Available in a choice of layouts and sizes, the Trooper can be fully customised to your needs.

The revolutionary G&S Chassis truss system chassis helps cut weight and add strength to allow more payloads for these off-road beasts. The cutting edge Control Rider Twin Shock suspension takes on corrugations with ease, now with even more robust shockers to handle heat better than ever, delivering optimum performance in the harsh Australian landscape.

We are RVMAP Accredited

Our commitment to consistently supply products that adhere to all relevant Australian Design Rules and Federal Compliance Regulations. When making your purchase, have confidence in knowing products from us are regularly inspected against this commitment.
